

Special Issue

Early Diagnosis and Treatment of Cardiovascular Disease

Message from the Guest Editors

We are pleased to invite you to contribute to our Special Issue (SI). This SI addresses the continuous development and research in cardiovascular diseases and comorbidities that influence prognosis and treatment, aiming to provide a significant perspective upon early diagnosis and treatment in different conditions. New guidelines on heart failure draw attention to the significant impact of early complete treatment and early diagnosis on cardiac disease. Patients with diabetes mellitus, chronic kidney disease, and anemia must be checked for cardiac conditions, and diagnosis and active treatment should address all risk factors. New data also show the utmost importance of inflammation in cardiac diseases. Moreover, novel biomarkers have emerged to improve diagnosis accuracy. In recent years, evidence has increased regarding the diagnosis and involvement of comorbidities in cardiac function. This SI aims to offer a complex and current overview of new research related to cardiac disease, expanding our current knowledge and adding insights related to its management.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
