

Special Issue

Emerging Therapies for Gastric Cancer

Message from the Guest Editors

This Special Issue, entitled "Emerging Therapies for Gastric Cancer," seeks to address this critical gap by bringing together cutting-edge research and comprehensive reviews from leading scientists and clinicians in the field. We invite contributions that explore novel therapeutic approaches, including targeted therapies, immunotherapies, combination treatments, and advancements in precision medicine tailored specifically for gastric cancer. This Special Issue aims to illuminate the pathways from bench to bedside, offering insights into the molecular mechanisms driving gastric cancer and the translational research that holds promise for more effective treatments. Original studies that provide new data, as well as review articles that synthesize current knowledge and propose future directions, are both highly encouraged.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
