

Special Issue

Update on COPD and Cystic Fibrosis

Message from the Guest Editor

Chronic obstructive pulmonary disease (COPD) and cystic fibrosis (CF) are two chronic inflammatory lung diseases, which seem to be very different from each other. The aim of this Special Issue will be to deliver new insights into the evolving field of CF and COPD research. Manuscripts focused on the following topics are strongly encouraged.

- Novel therapeutic strategies in CF and COPD;
- Chronic inflammation and infections in CF and COPD;
- Disparity research in COPD;
- Aging in COPD and CF;
- Access to care for patients with CF and COPD.

Guest Editor

Dr. Stefanie Krick

Division of Pulmonary, Allergy and Critical Care Medicine, The University of Alabama at Birmingham, Birmingham, AL 35294, USA

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
