New Insights into Heart Failure Management and Treatment

Message from the Guest Editors

Heart failure remains a major global health challenge, affecting millions of individuals worldwide and representing a leading cause of hospitalization and mortality. Despite advances in cardiovascular medicine, the burden of heart failure continues to grow.

This Special Issue, entitled "New Insights into Heart Failure Management and Treatment," delves into the latest research and clinical innovations seeking to address this complex syndrome. It highlights novel therapeutic approaches, including pharmacological advancements and device-based treatments, updated clinical guidelines, and cutting-edge diagnostic techniques that enable earlier detection and more personalized care.

Emphasis is placed on multidisciplinary management models that integrate cardiology, primary care, and allied health services to improve patient quality of life and reduce hospital readmissions. By synthesizing emerging evidence and expert perspectives, this Issue seeks to inform clinicians, researchers, and healthcare providers about future directions in heart failure treatment and the critical need for ongoing innovation to mitigate its growing impact.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
