Diagnosis, Management, and Treatment of Hearing Loss

Message from the Guest Editors

Hearing loss is one of the most prevalent chronic conditions worldwide, profoundly affecting communication, social interaction, and quality of life. Despite significant progress in diagnostic tools, hearing aids, cochlear implants, and surgical techniques, hearing loss remains underdiagnosed and undertreated, with considerable socioeconomic consequences. In recent years, major advances have been achieved in understanding the mechanisms of hearing disorders and developing innovative therapeutic strategies. Cutting-edge research, including regenerative medicine, molecular approaches, artificial intelligence, tele-audiology, and precision audiology, is reshaping both diagnostics and rehabilitation. Yet important challenges persist in achieving early diagnosis, optimising outcomes, and ensuring equitable access to care. To address these issues, *Medicina* is launching a Special Issue entitled “Diagnosis, Management and Treatment of Hearing Loss.” We warmly invite submissions of original research, reviews, and meta-analyses covering diagnostic innovations, medical and surgical interventions, auditory rehabilitation, technological advances, and public health strategies.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
