

Special Issue

Advances in the Pathogenesis and Treatment of Inflammatory Immune Diseases

Message from the Guest Editor

This Special Issue will focus on advances in the pathogenesis and treatment of inflammatory immune diseases in the past decade.

In recent years, treatments such as those based on steroids, small-molecule inhibitors (targeting signal transduction), and antibody-based therapeutics (targeting cytokines, chemokines, growth factors, T-cell activation, and co-stimulation) have been approved for clinical use.

Research in inflammatory diseases is constantly advancing. The identification of new therapeutic targets will facilitate expansion of the clinical benefit to patients in need.

We welcome the submission of research papers related to the following:

allergy (including asthma, allergic rhinoconjunctivitis, anaphylaxis, urticaria, and atopic dermatitis)

asthma

autoimmune disease

celiac disease

endometriosis

glomerulonephritis

graft-versus-host disease (GvHD)

hepatitis

inflammatory bowel disease (IBD)

ischemia/reperfusioninjury

transplant rejection

type 1 and 2 diabetes

Guest Editor

Dr. Elaine Yee Lin Chung

Pediatric Transplant and Cellular Therapy, Division of Pediatric Hematology, Oncology, and Cellular Therapy, The Children's Hospital at Montefiore, Bronx, NY 10467, USA

Deadline for manuscript submissions

closed (22 September 2023)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
