

Special Issue

Targeting Pain Pathways: Advances in Pharmacological Interventions

Message from the Guest Editor

We are pleased to invite publications for a Special Issue focused on recent advances in pharmacological strategies targeting pain pathways. Chronic and acute pain continue to have high global health burdens. The current pain management landscape, often relying on decades-old innovations, is ripe for transformation. Emerging therapies, from novel receptor modulators to targeted biologics, promise to revolutionize how we treat pain. We invite submissions of original research, reviews, and perspectives. We particularly encourage work that details advances in understanding nociceptive pathways and their translation into pharmacological interventions across diverse pain conditions. Submissions exploring molecular mechanisms, preclinical and clinical pharmacology, safety profiles, in silico approaches, and translational potential for both acute and chronic pain are encouraged. Researchers, clinicians, and interdisciplinary teams are all welcome to contribute. We invite you to join us in advancing the field of pain management

Guest Editor

Prof. Dr. Robert Ancuceanu

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
