Advances in Oral Surgery and Implant Dentistry

Message from the Guest Editor

Over the past few years, oral surgery (OS) and implant dentistry (ID) have experienced constant improvements in many aspects of patient care. We have witnessed a remarkable development of new surgical protocols and the implementation of new technologies into clinical practice. Although the OS and ID specialties originated in dentistry, the field has attracted collaboration and knowledge from numerous disciplines, such as medicine, radiology, as well as biomedical engineering. The specialties' ultimate goal is to provide evidence-based practices by minimizing patient morbidity and maximizing treatment success rate outcomes. The objective of this issue is to focus on updates in recent or emerging practices in OS and ID patients. The research topic may include but is not limited to innovative surgical techniques and or protocols, advanced imaging in planning and delivery of surgical treatments, OS surgical treatment disorders, and OS and ID clinical studies. Research may be prospective or retrospective, and review articles are encouraged.

Guest Editor

Dr. Roberto Sacco

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
