

## Special Issue

# Advances in Orthopedics and Sports Medicine

### Message from the Guest Editors

Sports medicine is an important research field and orthopaedic surgery in sports medicine is gaining significant surgical attention. Thus, orthopaedic surgery has progressed over the last 2–3 decades. The aim of this Special Issue is to present the latest research findings in the field of sports medicine. Papers focused on diagnosis, treatments and trends in sports medicine and studies related to joint saving surgery, for example, osteotomy, are welcome. In addition, authors are encouraged to submit papers which discuss surgical treatments and conservative strategies for sports-related injuries. These contributions can be in the form of original articles, technical notes or review articles.
