Head and Neck Cancers: Modern Management

Message from the Guest Editors

Advances in diagnostic techniques, but also therapeutic techniques have brought benefits in survival of patients with head and neck cancer. Longer survival rates also bring pattern of disease progression and toxicities through synergistic associations of oncological therapies. This Special Issue proposes the publications that present results of modern multimodal treatments and the toxicities related with long-term survival in locally advanced, recurrent and metastatic cases of head and neck cancer, in addition to the topics outlined below:

- Unusual patterns of disease progression
- A combination of radiotherapy-immunotherapy-targeted molecular therapy
- The abscopal effect after radiation therapy and immunotherapy
- Radio-induced secondary cancer
- Image-guided radiotherapy techniques and stereotactic body radiosurgery, proton therapy, carbon ion therapy, radiobiological models for toxicities
- Financial toxicity associated with the care of heavily treated throat cancer patients
- Modern management of oligo-metastatic disease

Guest Editors

Prof. Dr. Lucian Miron

Dr. Camil Mirestean

Dr. Dragos Teodor Iancu

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
