Special Issue

Hematologic Malignancies: Diagnosis, Prognosis and Management

Message from the Guest Editors

Recent advances in molecular diagnostics, targeted therapies, and immunotherapies including CAR T-cells have profoundly reshaped the landscape of hematologic malignancy treatment. However, significant challenges remain, including therapeutic resistance, disease relapse, and the need for more personalized prognostic tools. This Special Issue will collate cutting-edge research and clinical insights that address these critical areas. We will highlight the latest developments in the use of genomic and proteomic biomarkers for precision diagnosis and risk stratification, as well as novel therapeutic approaches and strategies for managing treatment-related toxicities. We also welcome submissions on the evolving role of minimal residual disease (MRD) monitoring and the integration of artificial intelligence in patient care pathways. We invite highquality original articles and comprehensive reviews that advance our understanding of hematologic malignancies. We look forward to receiving your valuable contributions to this vital field of medicine.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius

Medical Academy, Lithuanian University of Health Sciences, Kaunas, Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
