# Update on Orthopedic Surgeries of the Lower Extremity Diseases and Injuries: 3rd Edition

### Message from the Guest Editors

Following the success of the first and second editions of the Special Issue “Orthopedic Surgeries of the Lower Extremity Diseases and Injuries”—which together received over 60 submissions, published more than 45 articles, and reached more than 113,000 views—we are pleased to announce the launch of the third edition.

This Special Issue will serve as an academic platform for sharing recent progress in the surgical management of lower extremity disorders, including original research, systematic reviews, literature reviews, and technical notes. Topics of interest include:

Surgical innovations for the foot, ankle, hip, and knee  
Management of trauma in the lower extremities and sports injuries

Deformity correction and treatment strategies for infection

Application of biomaterials and insights from biomechanics

Advances in total joint arthroplasty and minimally invasive surgery

Reconstructive approaches to diabetic foot and wound care

Novel surgical techniques and translational research

High-quality systematic reviews, literature reviews, and technical notes
