Oral Physiology: Protective Mechanisms, Immune Responses and Pathways of Inflammation in Periodontal Conditions

Message from the Guest Editors

Periodontal disorders encompass a range of conditions affecting the tooth and surrounding tissues and are a multifaceted aspect of overall health that involves various physiological and psychological processes. This Special Issue seeks to elucidate the intricate interplay between the protective mechanisms and periodontal disorders. Recent research suggests a bidirectional relationship, a disrupted pattern and exacerbation of symptoms between the immune responses and periodontal structures. Understanding the relationship between these has important clinical implications. Healthcare providers should consider assessing immune patterns in individuals with periodontitis symptoms, and vice versa. Comprehensive treatment strategies may yield more effective outcomes. Collaborative efforts between researchers, clinicians, and healthcare professionals are essential to advance our understanding of this intricate interplay and enhance patient care. Original research articles and reviews are welcome. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
