Pancreatic Cancer: Advances in Treatment and Future Prospects

Message from the Guest Editors

Pancreatic ductal adenocarcinoma (PDAC) remains one of the most lethal malignancies, characterized by an aggressive biological profile, late-stage diagnosis, and limited response to existing therapies.

This Special Issue of *Medicina* focuses on the intersection of tumor biology, early detection, surgical innovation, and multimodal therapy in pancreatic cancer. We aim to highlight cutting-edge research and clinical advances in the following areas:

- Tumor biology and the genetic and molecular mechanisms driving PDAC progression;

- Biomarkers and novel strategies for early diagnosis and risk stratification;

- Innovations in surgical techniques, including robotic and minimally invasive approaches;

- Management and prevention of postoperative complications;

- Advances in neoadjuvant and adjuvant therapy protocols and their integration into clinical practice.

By gathering contributions from leading experts, this Special Issue seeks to provide a deeper understanding of the disease and its management, with the ultimate goal of improving early detection and optimizing therapeutic strategies to enhance patient outcomes.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
