

Special Issue

The Impact of Chemical Pollution on Human Health

Message from the Guest Editor

The journal *Medicina* launched a Special Issue titled "The Impact of Chemical Pollution on Human Health". Chemical pollution could have adverse effects on human health, including causing cancer, endocrine disruption, neurotoxicity, reproductive toxicity, etc. This Special Issue addresses the global public health concerns related to chemical pollution, including air, water, food, and soil pollution. It also addresses hazardous substances of global health concern such as toxic metals (cadmium, nickel, manganese, lead, and mercury), persistent organic pollutants (POPs), pesticides, and plasticizers such as phthalates and bisphenols, as well as major sources of their release and routes of exposure. Along with the adverse health effects observed in *in silico*, *in vitro*, and *in vivo* models, and from epidemiological studies, economic losses associated with exposure to the selected chemicals will be discussed. Eventually, attention should be paid to the chemical mixtures that simulate real-life exposure to these chemicals, their adverse health effects, and possible interactions.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
