Recent Advances in Digestive Endoscopy

Message from the Guest Editors

In recent years, clinical luminal and biliopancreatic endoscopy applications have been increasingly integrated into routine medical practice. The repertoire of endoscopists is expanding, with procedures becoming more complex and interventional, allowing for the minimally invasive management of a wider range of benign and malignant conditions. Notably, the introduction of artificial intelligence is transforming diagnostic endoscopy, while advancements in resection techniques and interventional endoscopic ultrasound (EUS) are significantly broadening the scope and indications of endoscopic procedures. Recognizing the complexity and significant implications of these developments in clinical practice and public health, *Medicina* is launching a Special Issue titled “Recent Advances in Digestive Endoscopy”. Our aim in publishing this Special Issue is to compile accurate and innovative scientific information on various aspects of endoscopic management in both benign and malignant conditions. We invite the submission of narrative and systematic reviews and original manuscripts.

Guest Editors

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
