Revolutionizing Cardiopulmonary Resuscitation: Contemporary Advances and Challenges

Message from the Guest Editors

The Special Issue, titled "Revolutionizing Cardiopulmonary Resuscitation: Contemporary Advances and Challenges", addresses the latest advancements and obstacles in pre-clinical, clinical, and community-based settings within the domain of resuscitation. This issue aims to comprehensively explore the entire spectrum of resuscitation, from experimental research and clinical trials to practical applications in real-world scenarios, such as community response systems.

This Special Issue incorporates advancements in related topics, such as airway management, ventilation, peri-arrest arrhythmias, shock, cardiac monitoring, point-of-care ultrasound, and non-technical skills in emergency settings.

All types of manuscripts are welcome for submission, including full-length original articles, reviews (narrative and systematic with/without meta-analysis), and high-quality case reports.
