Advances in Diagnosis and Treatment of Orthopedic Disorders

Message from the Guest Editor

Orthopedic disorders remain one of the leading causes of pain, disability, and reduced quality of life worldwide, affecting patients across all age groups. In recent years, rapid advances in diagnostic imaging, surgical techniques, biologic therapies, rehabilitation strategies, and digital technologies have significantly transformed the field of orthopedics. At the same time, clinicians and researchers continue to face important challenges related to early diagnosis, individualized treatment planning, optimization of functional outcomes, and prevention of complications or long-term joint degeneration. This Special Issue, entitled “Advances in Diagnosis and Treatment of Orthopedic Disorders”, aims to present and disseminate the latest scientific and clinical advances related to the diagnosis, treatment, and postoperative evaluation of orthopedic conditions. We welcome original research articles, systematic reviews, meta-analyses, and clinical studies addressing contemporary challenges and emerging trends in orthopedic practice and musculoskeletal research.

Guest Editor

Dr. Marcin K. Krzysztof Waško

Department of Radiology and Imaging, The Medical Center of Postgraduate Education, Warsaw, Poland

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
