Update on Orthopedic Surgeries of the Lower Extremity Diseases and Injuries

Message from the Guest Editor

The lower extremities, including the foot and ankle, are receiving an increasing amount of attention in the field of orthopedics compared to other parts of the body. Various diseases and deformities, trauma, and sports injuries can afflict this area of the body, and the field of orthopedics is evolving day by day. Accordingly, there have been many developments in the field of orthopedic surgery, and a number of new challenges have emerged, and many researchers want to share updated knowledge and research. We are pleased to announce the launch of a new Special Issue, entitled "Update on Orthopedic Surgeries of the Lower Extremity Diseases and Injuries". This Special Issue will focus on all emerging research papers related to lower extremity diseases or injuries, clinical studies, and trauma- and sports-related medical fields with regard to orthopedic surgeries. We look forward to inviting authors to submit reviews or original research that fit this scope.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
