New Advances and Challenges in Plastic Surgery

Message from the Guest Editors

Plastic surgery has undergone remarkable transformations in recent years, driven by continuous innovations in surgical techniques, biomedical technologies, and regenerative medicine. Once primarily focused on reconstructive efforts, the field now embraces a comprehensive approach that blends functional restoration with aesthetic refinement, improving patients' quality of life across a wide spectrum of conditions.

Recent advances span from microsurgical reconstruction and super-microsurgery to the integration of 3D printing, robotic-assisted procedures, and novel tissue engineering strategies. These developments have significantly enhanced surgical precision, minimized patient morbidity, and expanded the range of treatable defects in both reconstructive and aesthetic surgery.

We invite you and your colleagues to submit original articles or reviews focusing on progress in plastic surgery. Topics of interest include technical innovations, clinical outcomes, perioperative management, the integration of digital technologies, and future directions in surgical practice.

Guest Editors

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
