New Trends in Craniofacial Surgery

Message from the Guest Editor

Craniofacial surgery has evolved over the last 100 years. New trends in craniofacial surgery make it necessary to provide an up-to-date overview detailing advancements in this field in imaging techniques, virtual planning and three-dimensional printing and innovative surgical approaches. We invite colleagues from around the world to share their expertise in craniofacial surgery in this Special Issue featuring advances and new trends in the field. Contributions regarding pediatric and adult craniofacial surgery, facial plastic surgery, head and neck reconstruction, facial trauma, aesthetic surgery, virtual planning and 3D printing, facial gender confirmation surgery, orthognathic surgery and facial transplantation are welcome.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
