Advances in Cancer Therapy from Fundamental Research to Clinical Practice— Multidisciplinary Treatment of Cancer (Therapies and Their Toxicity)

Message from the Guest Editors

First of all, we would like to thank you all for submitting such a large number of original articles to our previous Special Issue, “[Advances in Cancer Therapy from Research to Clinical Practice—Surgical, Molecular or Systemic Management of Cancer: 2nd Edition](#)”. The current Special Issue is the result of the great support of *Medicina*, and we envision this extended Special Issue as an opportunity for each member of the scientific and academic community to publish any original and significant research that ranges from fundamental concepts to clinical experience. The complexity of the scientific world today, with non-regulated interference from AI in research and publishing, poses difficulties for both the current and for future generations of researchers. With that said, we invite you to participate in this Special Issue of *Medicina* in order to facilitate the presentation of your research and/or institutional experience of treating cancer patients. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
