Special Issue

Recent Advances in Plastic and Reconstructive Surgery

Message from the Guest Editors

Plastic surgery has become almost synonymous with innovation, with recent developments reshaping both the aesthetic and reconstructive practices. Advancements such as minimally invasive techniques, regenerative medicine, and the use of stem cell therapy are enhancing patient outcomes by improving precision. reducing recovery times, and minimizing risks. Additionally, digital technologies like 3D printing and artificial intelligence are revolutionizing surgical planning and execution, offering unprecedented levels of customization and accuracy. The growing popularity of non-surgical treatments provides patients with more options and less invasive alternatives, further expanding the field. This Special Issue aims to showcase the latest innovations that are transforming the field of plastic surgery. We seek original articles on topics including, but not limited to, minimally invasive procedures. regenerative medicine, and non-surgical treatments, as well as new findings regarding surgical outcomes or demographics.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius

Medical Academy, Lithuanian University of Health Sciences, Kaunas, Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
