

Special Issue

Physiotherapy in Patients with Musculoskeletal Disorders

Message from the Guest Editors

We are pleased to announce a special issue on 'Physiotherapy in Patients with Musculoskeletal Disorders'. Physiotherapy treatment is a fundamental part of the multidisciplinary approach to many musculoskeletal diseases. This special issue aims to explore the latest advances in the prevention, diagnosis, and physiotherapy treatment of musculoskeletal disorders, providing a platform for the dissemination of cutting-edge research and innovative practices. We invite you to submit articles addressing various aspects of prevention, diagnosis, and treatment in physiotherapy, including, but not limited to, the following:

- Innovative strategies for the prevention of sequelae resulting from musculoskeletal disease and their application in real-world settings.
- Advanced and novel physiotherapy techniques adapted to musculoskeletal diseases.
- Use of technology and personalized approaches in the assessment and treatment of patients with musculoskeletal diseases.
- Therapeutic methods that combine physiotherapy techniques with techniques from other bio-health areas in a multidisciplinary approach to these patients.
