

Special Issue

High-Risk Pregnancy - Series II

Message from the Guest Editors

The fields of pregnancy care and obstetrics have evolved rapidly in the last few decades consequent to quality research being undertaken. Pregnancy, childbirth and postpartum are now safer than ever, with high-risk conditions being early anticipated and managed. The aim of this Special Issue of *Medicina* is to explore the current advances in the field of obstetrics, including maternal morbidity and mortality, short and long-term outcomes after complicated pregnancy, maternal disease, fetal abnormalities, intrapartum complications, management of pregnancies following assisted reproductive techniques and twin pregnancies. Submission of unpublished original studies is welcome, including fundamental and clinical research studies, observational and interventional studies, randomized controlled trials and reviews, with an emphasis on relevant clinical questions and quantitative syntheses (meta-analyses) of pooled data. Authors are invited to contact the Editorial Team in advance if they require assistance for the preparation of their manuscript.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
