New Developments in Diagnosis and Management of Breast Cancer

Message from the Guest Editors

Breast cancer continues to be the most prevalent malignancy among women and remains the leading cancer diagnosis worldwide. Despite the significant progress made, it presents an ongoing clinical challenge due to its biological heterogeneity and variable prognosis. The landscape of breast cancer management and therapy is rapidly evolving, driven by the advent of innovative diagnostic tools and therapeutic strategies. Modern advancements in molecular profiling, targeted therapies, and precision medicine have significantly improved disease outcomes and enhanced overall survival rates. These developments underscore the necessity for a personalized approach to both diagnosis and treatment, tailored to the unique biological characteristics of each patient's case of the disease. This Special Issue will gather groundbreaking studies and comprehensive reviews that illuminate the latest trends, innovations, and scientific breakthroughs in the diagnosis and management of breast cancer. By fostering knowledge dissemination, this Special Issue will contribute meaningfully to the advancement of clinical practice and future research directions.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
