Clinical Updates on Gynecological Pathology

Message from the Guest Editor

As a gynecological pathologist, I have witnessed firsthand the rapid evolution in diagnostic criteria, molecular classification, and personalized management of gynecologic diseases. The growing integration of morphology with immunohistochemistry and molecular pathology has profoundly transformed our diagnostic approach, requiring continuous updates and critical appraisal of emerging data. My motivation in guest editing this Special Issue is to provide a focused and practical resource for pathologists, highlighting key developments that directly impact daily diagnostic practice. This issue aims to bridge current knowledge gaps, present consensus recommendations, and spotlight areas of diagnostic uncertainty or controversy. By bringing together expert contributions, we hope to facilitate confident, accurate diagnoses and foster a deeper understanding of the pathogenesis and clinical implications of gynecologic disorders. I am honored to contribute to “*Clinical Updates on Gynecological Pathology*” and trust this issue will serve as a valuable tool for practicing pathologists and trainees alike.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
