

Special Issue

Advances in GLP-1 Agonists and Liver Disease

Message from the Guest Editor

It is a pleasure to introduce this Special Issue of *Medicina*, entitled “Advances in GLP-1 Agonists and Liver Disease”, which is now open to submissions of original articles, narrative and systematic reviews, and meta-analyses. The advent of GLP-1 agonism has radically shaped the management of obesity and obesity-related diseases such as MASLD. The significant reduction in liver steatosis and reversal of fibrosis achieved are paving the way towards greater use of GLP-1 agonists in liver diseases of different origins. We invite submissions exploring current and future therapeutic applications of GLP-1 agonists.

Guest Editor

Dr. Emidio Scarpellini

Translational Research Center for Gastrointestinal Disorders (TARGID),
Department of Chronic Diseases, Metabolism and Ageing (ChroMetA),
Catholic University of Leuven, 3000 Leuven, Belgium

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
