Emergency Medicine in Haemostasis Disorders

Message from the Guest Editor

Thrombosis, a life-threatening complication, is a significant cause of morbidity and mortality in cardiovascular disease. Over the past few decades, advanced progress has been made in managing thrombotic disorders in emergency and critical care, including medications, endovascular therapy, and surgical intervention. Moreover, improving the quality of care is also pivotal in decreasing the time to revascularization and managing complications. The main aim of this Special Issue of *Medicina* is to highlight contemporary advances in acute care for thrombotic disorders in emergency and critical care. This Special Issue is open to studies for new techniques or strategies, decision-making, clinical outcome research, quality improvement, and systematic reviews and meta-analyses in care for thrombotic disorders. In this Special Issue, papers focused on thrombotic disorder care updates are highly welcomed. We wish to solicit studies from different perspectives, including emergency, critical care, nursing care, quality improvement, bench or clinical study design, case management, pharmacological therapy, endovascular or surgical intervention, and meta-analysis.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
