

Special Issue

Modern Endovascular Therapy for Peripheral Arterial Disease

Message from the Guest Editors

For this Special Issue entitled “Modern Endovascular Therapy for Peripheral Arterial Disease”, we would like to invite authors across various specialties to submit their original manuscripts or review articles on advances on endovascular treatment. This issue will focus on innovations and advances that improve the results of endovascular treatment in patients with aorto-iliac, femoropopliteal as well as below-the-knee peripheral arterial disease. Articles on novel technologies (e.g., artificial intelligence) and devices as well as outcomes of clinical studies that further push the limits of endovascular therapy in vascular disease would be welcome for submission. This issue will also be open to articles focusing on the use of drug eluting devices, thrombolysis, lithotripsy, atherectomy systems or the use of hybrid techniques combining open surgery and endovascular interventions. Critical articles on the limits of current endovascular technologies and the role of bail-out strategies would also be considered for publication.

Guest Editors

Dr. Florian Enzmann

Department of Vascular Surgery, Medical University Innsbruck, Innsbruck, Austria

Prof. Dr. Sabine Helena Wipper

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
