

Special Issue

Update in Forensic Sciences

Message from the Guest Editor

Challenges and problems in forensic sciences are as old as human interaction and as new as the information age. Given the importance of the topic, the journal *Medicina* is launching a Special Issue entitled “Update in Forensic Sciences” with the aim of gathering accurate and up-to-date scientific information on all aspects of this theme. Particularly, this Special Issue aims to get an overview of recent technological advances in all fields of the forensic sciences, both new technology and new applications of existing technology, illustrating with examples of how these innovations impact the practice and the role of forensic pathologists about death investigation. At the same time, this Special Issue aims to analyze the unsolved questions in every field of forensic pathology. The ultimate purpose of this Special Issue is to obtain review articles that provide a comprehensive overview of the recent advances in all areas of forensic pathology.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
