The Legacy of the Nobel Prize for Medicine Awardee Renato Dulbecco 10 Years Later: The Post-Genomic Era

Message from the Guest Editors

Nobel Prize Awardee Renato Dulbecco has been a pioneer of the investigation of the genetic mechanisms underlying cancer and other complex disorders and is one of the major promoters of the Human Genome Project. Ten years after his departure, his legacy still inspires generations of physicians and researchers in the critical journey toward the post-genomic era.

The aim of the Special Issue is to highlight the role of Dulbecco in trailblazing the path to genomic medicine. It will include considerations on how the sequencing of our genome has changed science and opened the door to translational science and precision medicine.

Cutting-edge research includes the following: translational research from genetics to genomics and other omics; next-generation sequencing and direct-to-consumer genetic tests; new awareness of the interaction between genome and environment; ethical challenges of the post-genomic era; focus on how genetic knowledge has changed the approach to the investigation of complex disorders.

We are soliciting research papers, short reports, reviews, systematic reviews, meta-analyses, letters to the Editor, and commentary papers.

Guest Editors

Prof. Dr. Ludovico Abenavoli

Department of Health Sciences, University "Magna Græcia", Campus Germaneto, I-88100 Catanzaro, Italy

Dr. Luigi Boccuto

School of Nursing, Healthcare Genetics Program, Clemson University, Clemson, SC 29646, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
