

Special Issue

Pediatric Allergy and Respiratory Diseases

Message from the Guest Editors

The constant developments in the knowledge of allergic and immunological diseases, both from a pathogenetic and therapeutic point of view, require constant updating, especially for the introduction of new therapies with biological drugs. The purpose of this Special Issue is to facilitate young researchers to share their research and formulate synthetic reviews on innovations that have emerged in recent years. We invite authors to submit original articles, review articles, and case reports dealing with, but not limited to, the following cutting-edge research: biologic treatments, epigenetic studies, and exposome and environmental influences on allergic diseases.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
