

Special Issue

Thoracic Surgery for Lung, Pleural and Esophageal Malignancies: Current Practice and Future Directions

Message from the Guest Editors

The journal *Medicina* is launching a Special Issue titled “Thoracic Surgery for Lung, Pleural and Esophageal Malignancies: Current Practice and Future Directions” with the goal of bringing together and presenting current and future developments in thoracic surgery and thoracic oncology. We are pleased to invite you and your co-workers to submit your articles on this topic. We encourage the submission of original, review, or short report articles dealing with current issues of thoracic surgical practice including outcomes and efficacy of VATS and RATS, as well as traditional operative approaches for lung, esophageal, and pleural cancers, technical challenges, novel video-thoracoscopic techniques, as well as future improvements in equipment, energy devices, instrumentation, and robotic technology. In addition, we encourage the reporting of issues and developments in oncological surgical management. Finally, it would be of interest to receive reports regarding the introduction, integration, and establishment of thoracoscopic surgery within the current clinical practice.

Guest Editors

Dr. Emmanouil Kapetanakis

Locum Thoracic and ICU Consultant, General Hospital of Piraeus “Tzaneio”, Athens, Greece

Dr. Periklis Tomos

Academic Department of Thoracic Surgery, “Attikon” University Hospital, Medical School, Athens, Greece

Deadline for manuscript submissions

closed (30 April 2023)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania
