

Special Issue

Acupuncture – Basic Research and Clinical Application

Message from the Guest Editor

This Special Issue focuses on the further investigation, development, and modernization of acupuncture in basic research settings, as well as in clinical applications. We welcome papers reporting latest evidence-based results of high-tech acupuncture research, and those exploring acupuncture in general. Studies concerning modern technology in acupuncture research are especially welcome. Manuscripts should deal with, but are not limited to, the keywords listed below.

- Modernization of acupuncture
- basic research
- traditional and modern needle acupuncture
- laser acupuncture
- electroacupuncture
- ear acupuncture
- animal experimental studies in acupuncture
- evidence-based complementary medicine
- acupuncture in clinical application and practice
