Advances and Challenges in Headache and Migraine Management: A Global Perspective

Message from the Guest Editor

Headache disorders, including migraines and tension-type headaches, are among the most prevalent and disabling neurological conditions worldwide. We invite submissions on all aspects of headache and migraine management—ranging from acute and preventive treatments to emerging therapies, clinical pathways, health services research, and real-world implementation.

We encourage contributions that explore diverse approaches to managing headache disorders in both clinical and community settings. We encourage studies addressing the global landscape of care. This issue aims to provide a platform for advancing the science and practice of headache care across contexts, with the goal of improving outcomes for individuals living with headache disorders worldwide.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Antoni Torres

1. Institut D investigacions August Pi I Sunyer (IDIBAPS), Department of Pulmonology, Hospital Clinic de Barcelona, Universidad de Barcelona, 08036 Barcelona, Spain

2. Centro de Investigación Biomédica en Red en Enfermedades Respiratorias (CIBERES), Instituto de Salud Carlos III, 28029 Madrid, Spain

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, MEDLINE, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.3 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
