

Special Issue

Endovascular Management of Complex Aortic Pathologies and Complications

Message from the Guest Editor

It is a great honor for me to participate as for the Special Issue of the prestigious journal *Medical Sciences*. The Special Issue aims to analyze the modalities of treatment of complex aortic diseases in elective and urgent time. Actually, the development of technologies allow vascular surgeons to treat these pathologies according to different strategies depending on urgency, the experience of surgeons and the availability of materials. Reporting the analysis of the various centers in the current literature is important to compare the various types of treatment.

Guest Editor

Dr. Mafalda Massara

Unit of Vascular Surgery, Grande Ospedale Metropolitano "Bianchi-Melacrino-Morelli", 89124 Reggio Calabria, Italy

Deadline for manuscript submissions

31 July 2026
