Transglutaminases in Health and Disease

Message from the Guest Editors

At present, significant progress has been made in understanding the biological role of most mammalian transglutaminase isoforms. Recent findings suggest new scenarios, and several studies have shown that some transglutaminases normally present at low levels in many tissues, are activated and/or overexpressed in a wide variety of human diseases thus paving the way for new therapeutic possibilities. In addition, the identification and the characterization of the modified proteins will allow to shed new light on the functions of the transglutaminase and to understand better their involvement in human diseases. In light of this, I am pleased to invite you to contribute to this Special Issue, "Transglutaminases in Health and Disease" whose objectives are to publish and collect both experimental and theoretical contributions from original and high-quality research articles and encourage researchers to investigate topics in the field of transglutaminases in various diseases.

Lead Co-

Guest Editors

Prof. Dr. Simone Beninati

Department of Biology, University of Tor Vergata, Rome, Italy

Prof. Carlo Mischiati

Department of Biomedical Sciences and Surgical Specialties, Faculty of Medicine, Pharmacy and Prevention, University of Ferrara, Ferrara, Italy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Antoni Torres

1. Institut D investigacions August Pi I Sunyer (IDIBAPS), Department of Pulmonology, Hospital Clinic de Barcelona, Universidad de Barcelona, 08036 Barcelona, Spain

2. Centro de Investigación Biomédica en Red en Enfermedades Respiratorias (CIBERES), Instituto de Salud Carlos III, 28029 Madrid, Spain

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, MEDLINE, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.3 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
