

CESE-2018: Membrane Technologies for Water Sustainability

Guest Editors:

Prof. Dr. Veeriah Jegatheesan

**Prof. Chettiyappan
Visvanathan**

Dr. Li Shu

Prof. Dr. Faisal I. Hai

Message from the Guest Editors

This call for papers invites researchers broadly and the delegates of the International Conference on the Challenges in Environmental Science and Engineering, CESE-2018 (to be held 4–8 November, 2018, at the Sukosol Bangkok in Thailand) in particular, who are working on the above to submit original research papers, critical review articles, case studies and technical notes on the following themes:

Deadline for manuscript
submissions:
closed (30 March 2019)

- Membrane application in zero liquid discharge
- Membrane application in industrial wastewater treatment and discharge
- Membrane application for the removal of emerging contaminants from water
- Membrane application in renewable energy production processes
- Membrane applications in stormwater management
- Membrane applications in concentrate management

Authors are requested to provide clear evidence of how their work will contribute to water sustainability in their manuscripts.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

Membranes is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Chemistry, Physical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
