Deadline for manuscript  
submissions:

**31 July 2019**

### Message from the Guest Editor

The 2019 conference in the 'Engineering with Membranes' takes place in the beautiful town of Båstad in the south of Sweden, 8–10 April, 2019. The focus of this edition of 'Engineering with Membranes' will be on 'Membranes for a Sustainable Future'. The Special Issue welcomes papers dedicated to the sustainable manufacturing, design, and application of membrane and membranes processes. In particular, papers related to the development and integration of membranes processes in the food, biorefinery, and biotech industry are welcomed. The main topics covered in these papers are:

- Membranes
- Membrane modules
- Membrane fouling and cleaning
- Microfiltration, ultrafiltration, nanofiltration, and reverse osmosis
- Pervaporation and vapor permeation
- Membrane contactors
- Food industry
- Biorefineries
- Pulp and paper industry
- Petroleum and gas industry
- Biotech and pharmaceutical industry
- Water and wastewater treatment including process water recovery

## Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

*Membranes* is an international, peer-reviewed open access journal of membrane technology published quarterly online by MDPI. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** Indexed in the Chemical Abstracts, SciFinder (CAS), Emerging Sources Citation Index (ESCI – Web of Science), **Ei Compendex**, **Scopus** and other databases.

**CiteScore 2017 (Scopus): 2.69**, ranks 5/18 in 'Chemical Engineering (miscellaneous)', 15/53 in 'Process Chemistry and Technology', and 4/10 in 'Filtration and Separation'.
