### Message from the Guest Editors

This Special Issue is dedicated to providing comprehensive coverage on the recent developments in RO membrane design, fabrication, and processes. Potential topics include, but are not limited to, the fabrication of RO membrane using novel materials and fabrication methods, the optimization of the RO process through module and process design, fouling detection methods and fouling control strategies, and pre-treatment technologies to enhanced RO processes. Authors are invited to submit their latest results; both original papers and reviews are welcome.

Deadline for manuscript  
submissions:

**closed (31 August 2020)**

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

*Membranes* is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:**—free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** Indexed by the **Science Citation Index Expanded (SCIE-Web of Science)**, **Scopus (CiteScore: 3.5)**, **Ei Compendex**, **SciFinder (CAS)**, **Polymer Library** and other databases. Citations available in **PubMed**, full-text archived in **PubMed Central**.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately **11.5 days** after submission; acceptance to publication is undertaken in **2.7 days** (median values for papers published in this journal in the first half of 2020).
