CESE-2019: Applications of Membranes for Sustainability

Message from the Guest Editors

This call for papers invites researchers broadly and the delegates of the International Conference on the Challenges in Environmental Science and Engineering, CESE-2019 (3–7 November, 2019, at Grand Hi-Lai Hotel in Kaohsiung, Taiwan) in particular, whose work is related to applications of membranes for sustainability to submit original research papers, critical review articles, case studies, and technical notes on the following themes: Applications of membranes in

- Air purification
- concentrate management
- drinking water treatment
- industrial wastewater treatment and discharge
- integrated water management
- liquid/gas separation
- renewable energy production processes
- stormwater management
- removal of emerging contaminants from water
- zero liquid discharge

Note: Submissions from the attendees will enjoy a 50% discount on the Article Processing Charge (APC)!

Guest Editors

Prof. Dr. Veeriah Jegatheesan

Prof. Chettiyappan Visvanathan

Dr. Li Shu

Prof. Dr. Faisal I. Hai

Prof. Dr. Ludovic F. Dumée

Deadline for manuscript submissions

closed (30 April 2020)

About the Journal

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375). *Membranes* is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Spas D. Kolev
School of Chemistry, The University of Melbourne, Melbourne, VIC
3010, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Polymer Science) / CiteScore - Q1 (Chemical Engineering (miscellaneous))
