

Topical Collection

Feature Papers in 'Membranes in Life Sciences'

Message from the Collection Editor

Membranes is also open to submission (research articles, short communications, and review articles) on biological membranes. We are launching a Topical Collection on "Feature Papers in 'Membranes in Life Sciences'", in which the main topics include (but are not limited to):

- Transport across the membrane;
- Cell function related to membrane morphogenesis;
- Membrane shaping of cells and subcellular organelles;
- Membrane shaping of artificial liposomes;
- Transport by membrane vesicles;
- Membrane interaction with proteins, sugars, and other biological materials;
- Biological membrane synthesis;
- Application of biological membranes and their mimicry to industry and research;
- Visualization of membranes.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375). *Membranes* is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Spas D. Kolev

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Polymer Science) / CiteScore - Q1 (Chemical Engineering (miscellaneous))
