

Special Issue

Membranes and Membrane Processes in Medicine

Message from the Guest Editors

The Special Issue focuses on the importance of the membranes and the membrane processes in medicine. The purpose is to include all the different relevant aspects of the topic. To improve understanding around natural membrane mechanisms and the medical application of artificial membranes, it will cover all aspects which highlight the important role of the membranes and the membrane processes in medicine. Topics may include, but are not limited to, biological and artificial membranes, fundamental and applications, theoretical and experimental studies, recent developments, etc. Interested authors are welcomed to submit their latest research findings, review papers, perspectives, and review papers on the topic.

Guest Editors

About the Journal

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375). *Membranes* is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Spas D. Kolev
School of Chemistry, The University of Melbourne, Melbourne, VIC

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Polymer Science) / CiteScore - Q1 (Chemical Engineering (miscellaneous))
