

## Special Issue

# Polymer Inclusion Membrane in Industrial Application

### Message from the Guest Editors

The main aim of this Special Issue is to present novel approaches of membrane technologies in industrial applications. The scope of this Special Issue include polymer inclusion membranes applications in industry; combining membrane processes with other forms of technology; improvement of membrane selectivity and/or permeability, recovery; microstructures of membranes, process design, water and wastewater treatment; the possibility of membrane recycling and reusing, and novel applications. This Special Issue is devoted to "Polymer Inclusion Membranes in Industrial Applications". Authors are invited to submit their contributions in forms of research articles (based on either lab-scale or pilot-scale experiments, or simulation results), technical reporting, case studies, and critical reviews.

### Guest Editors

Dr. Anna Nowik-Zajac

Dr. Iwona Zawierucha

Prof. Dr. Grzegorz Malina

### Deadline for manuscript submissions

closed (25 February 2023)

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375). *Membranes* is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Spas D. Kolev  
School of Chemistry, The University of Melbourne, Melbourne, VIC  
3010, Australia

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Polymer Science) / CiteScore - Q1 (Chemical Engineering (miscellaneous))
