## Lipid Expression and Metabolism Aberrations in Skin Diseases

Guest Editors:

**Dr. Julia Nowowiejska**

Department of Dermatology and Venereology, Medical University of Białystok, 15-089 Białystok, Poland

**Prof. Dr. Iwona Flisiak**

Department of Dermatology and Venereology, Medical University of Białystok, 15-089 Białystok, Poland

**Dr. Anna Baran**

Department of Dermatology and Venereology, Medical University of Białystok, Zurawia 14 St., 15-540 Białystok, Poland

Deadline for manuscript submissions:

**closed (30 June 2023)**

### Message from the Guest Editors

Dear Colleagues,

We kindly invite you to join us in the new Special Issue of the prestigious journal *Metabolites*. This time, we are going to focus on lipid expression and metabolism aberrations in different skin diseases.

We warmly invite you to participate in this project and submit papers on different dermatoses that are in your field of expertise and are associated with disturbances in lipid homeostasis. We are going to discuss metabolic complications, their markers, and treatment in relation to skin diseases. Papers regarding psoriasis, lichen planus, vitiligo, hidradenitis suppurativa, alopecia, and others that are associated with lipid aberrations are welcome.

We hope that you accept our invitation and help us to prepare an exceptional Special Issue.

### Keywords

- lipids
- lipid aberrations
- lipid metabolism
- skin diseases
- dermatology
- psoriasis
- lichen planus
- alopecia
- vitiligo
- hidradenitis suppurativa

## Editor-in-Chief

### Dr. Amedeo Lonardo

1. Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda Ospedaliero-Universitaria, 41126 Modena, Italy  
2. Formerly Professor of Internal Medicine, School of Specialization of Allergology and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

## Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Biochemistry and Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
