Metabolomics 2019

Guest Editors:

Prof. Dr. Oliver A. H. Jones

Biosciences and Food
Technology, RMIT University,
Melbourne, VIC 3000, Australia

Dr. Horst Joachim Schirra

Centre for Advanced Imaging,
University of Queensland,
Brisbane, QLD 4072, Australia

Deadline for manuscript
submissions:

closed (31 October 2019)

Message from the Guest Editors

Dear Colleagues,

The 15th International Conference of the Metabolomics Society is the official meeting of the Metabolomics Society and the largest international metabolomics conference worldwide. It brings together all the major international organizations involved in metabolomics, with topics including metabolite identification, metabolic disease, food science, plant and microbial biology, environment science and toxicology, as well as all the new developments in analytical technologies and bioinformatics and data processing.

For this Special Issue, we particularly, but not exclusively, welcome papers presented at or resulting from this conference, with a focus on any topic relevant to metabolomic science.

We look forward to reading your papers!

Best regards

Assoc. Prof. Oliver A.H. Jones

Dr. Horst Joachim Schirra

Guest Editors

Notes: Attendees of the 15th International Conference of the Metabolomics Society can enjoy a 20% discount on the Article Processing Charge when their extended conference papers are accepted for publication in Metabolites, after peer review by external experts. Please specify this benefit in the cover letter.

Editor-in-Chief

Dr. Amedeo Lonardo

1. Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda Ospedaliero-Universitaria, 41126 Modena, Italy
2. Formerly Professor of Internal Medicine, School of Specialization of Allergology and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biochemistry and Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
