Message from the Guest Editors

Dear Colleagues,

The Australian & New Zealand Metabolomics Conference (30 August to 1 September, 2018, University of Auckland) was designed from conception as a community-owned event and provides a facilitated networking experience where (1) attendees learn on the first day of each other's interests, experience, scientific background, collaboration opportunities and other avenues for outreach (The Round-Table Discussion); (2) an open-forum format for rich discourse on spontaneous peer-selected topics (The Peer Session); (3) the delivery of critical updates in the field (Traditional Presentations) and (4) the tailored and vital exposure of young scientists to the wider research community (Rapid-Fire Postgraduate Presentation Sessions).

More information about the Australian & New Zealand Metabolomics Conference can be found at: <http://www.anzmet.org/>

Dr. Daniel A. Dias

Dr. Devin Benheim

Guest Editors

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Amedeo Lonardo

1. Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda Ospedaliero-Universitaria, 41126 Modena, Italy
2. Formerly Professor of Internal Medicine, School of Specialization of Allergology and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biochemistry & Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
