## Agribio and Food Metabolomics

Guest Editors:

**Dr. Daniel A. Dias**

**Dr. Devin Benheim**

**Dr. Konstantinos A.  
Kouremenos**

**Dr. David P. De Souza**

**Dr. Damien L. Callahan**

**Dr. Farhana R. Pinu**

**Dr. David J. Beale**

**Prof. Dr. Bruno Fedrizzi**

Deadline for manuscript  
submissions:

**closed (28 February 2019)**

### Message from the Guest Editors

Dear Colleagues,

The Australian & New Zealand Metabolomics Conference (30 August to 1 September, 2018, University of Auckland) was designed from conception as a community-owned event and provides a facilitated networking experience where (1) attendees learn on the first day of each other's interests, experience, scientific background, collaboration opportunities and other avenues for outreach (The Round-Table Discussion); (2) an open-forum format for rich discourse on spontaneous peer-selected topics (The Peer Session); (3) the delivery of critical updates in the field (Traditional Presentations) and (4) the tailored and vital exposure of young scientists to the wider research community (Rapid-Fire Postgraduate Presentation Sessions).

More information about the Australian & New Zealand Metabolomics Conference can be found at: <http://www.anzmet.org/>

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Markus R. Meyer

Department of Experimental and Clinical Toxicology, Institute of Experimental and Clinical Pharmacology and Toxicology, Center for Molecular Signaling (PZMS), Saarland University, 66421 Homburg, Germany

## Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Biochemistry & Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
