Metabolomics in Agriculture

Guest Editors:

Prof. Dr. Ian Dubery

Prof. Dr. Lizelle A. Piater

Dr. Fidele Tugizimana

Deadline for manuscript
submissions:

closed (30 March 2019)

Message from the Guest Editors

This Special Issue is devoted to “Metabolomics in Agriculture” and topics that will be covered include (not exclusively): Studies on metabolomic analyses of host responses to biotic stresses, such as pathogen infection and insect attacks; adaptation mechanisms to abiotic stresses such as drought, heat and salt and mitigation effects of bio-stimulants thereon, as well as optimization and development of crop traits to enhance diet and health.

Topics of interest include, but are not limited to:

- agricultural biotechnology
- metabolomics
- metabolic networks
- stress adaptation

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Amedeo Lonardo

1. Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda Ospedaliero-Universitaria, 41126 Modena, Italy
2. Formerly Professor of Internal Medicine, School of Specialization of Allergology and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biochemistry and Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
